  - Magento, Wordpress, Typo3, Drupal CMS, MODX, Liferay
  
- **Mobile Development**
  - iOS, Android, Windows 8, RT and Phone

## IV. Innovative products

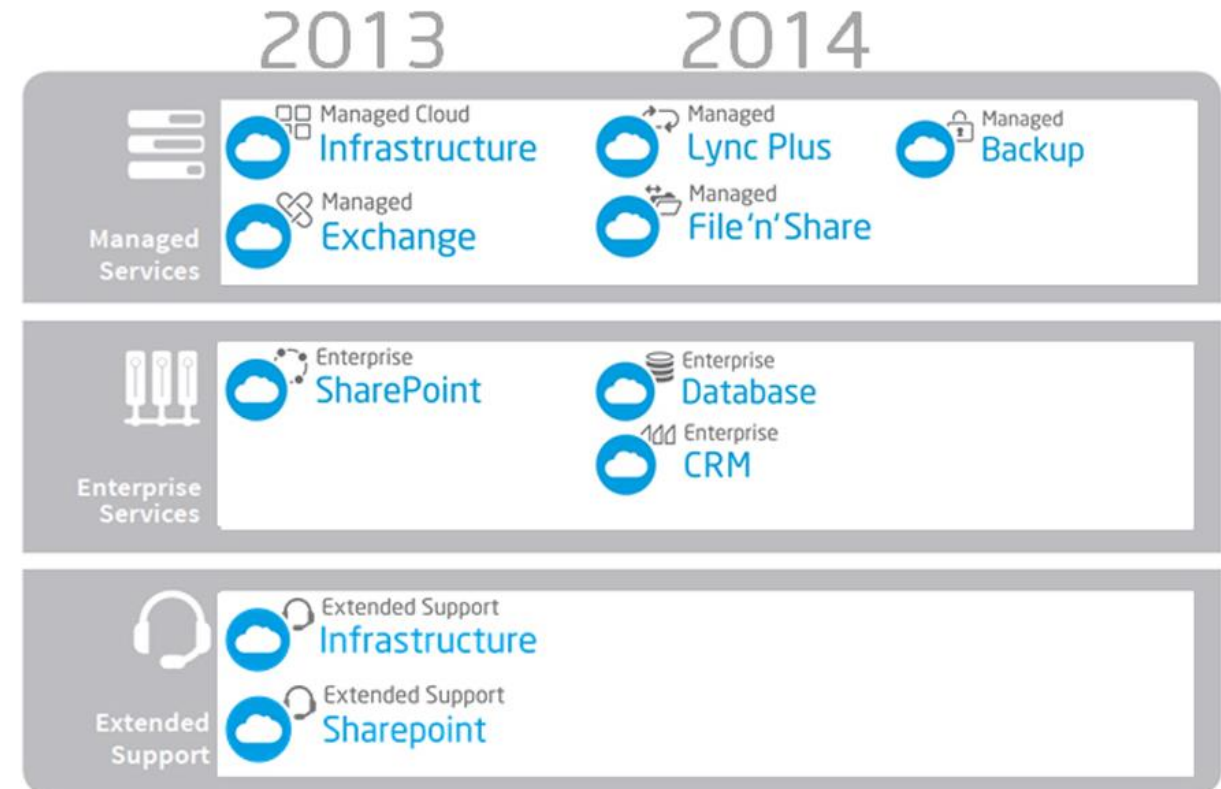

# Cloud Platform

In 2013 BULPROS developed an innovative Cloud Platform, together with one of its partners – the German company Auxo GmbH. The BULPROS platform is based on Microsoft Windows Server 2012 R2 and System Center 2012 R2.

**The following solutions and services, completed by flexible SLAs and extended support services, are available:**

- Infrastructure as a Service (IaaS) in case of hybrid and public cloud;
- Exchange 2013 as a Service;
- Managed SharePoint 2013;

The HR solution Staffico.com is a web based application, which facilitates the data- and document processing of Recruitment Agencies and Internal Recruitment Departments.

**The system provides numerous advanced functionalities, such as:**

- Creating, maintaining and using the candidates' records which are easily accessible through a user-friendly interface;
- Management of open vacancies' profiles and lifecycle management;
- Tracking candidates' history, filtered by a certain position and vice versa; etc.

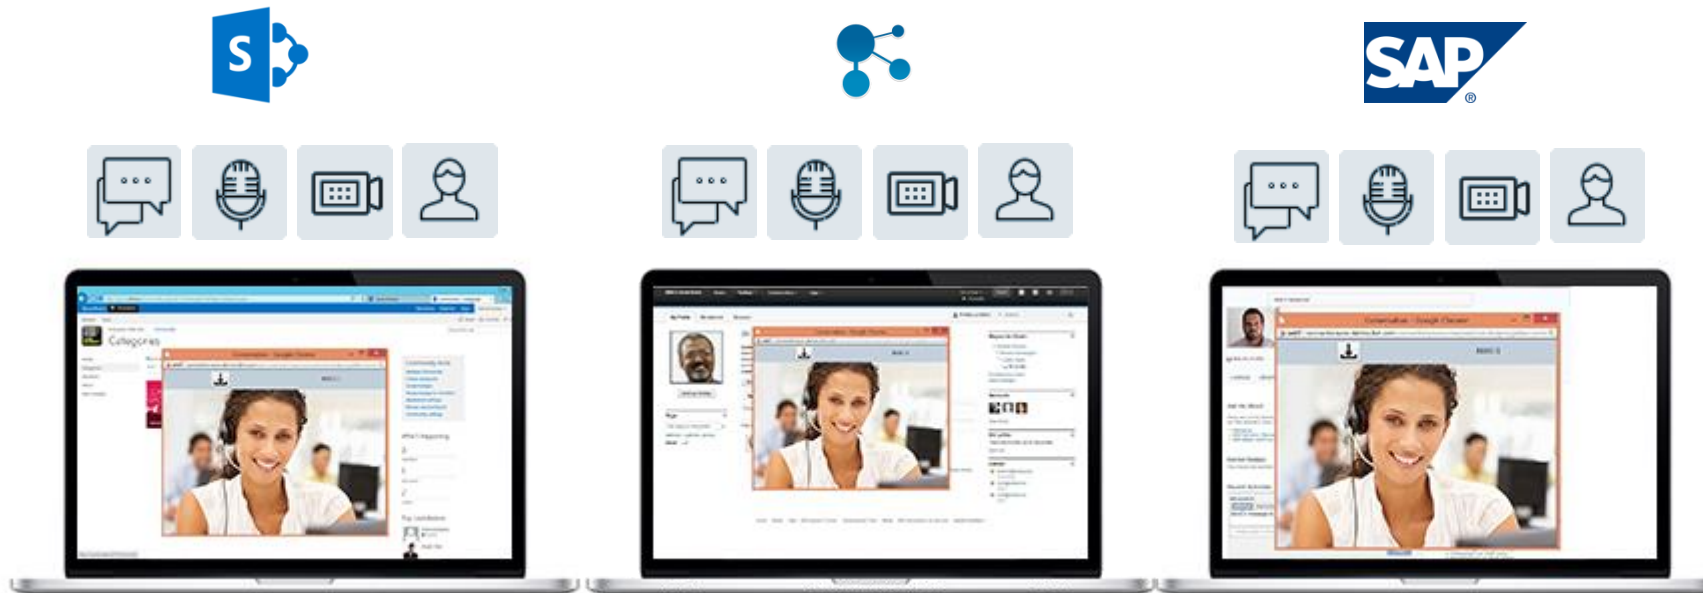

The screenshot displays the Staffico.com interface for managing candidate skills. The page title is "Skills Candidate" under the "Easy Consult" logo. A navigation menu on the left includes options like Home, Projects, Candidates, and Candidate Skill Search. The main content area features a table with columns for Candidate, SkillItem, SkillLevel, Modified, Modified By, and Candidate:Title. The table lists various candidates and their associated skills, such as Krassimira Petrova Zafirova with SAP and Boyko Boev with WCF. A search bar and "Find an item" input are visible above the table.

Candidate	SkillItem	SkillLevel	Modified	Modified By	Candidate:Title
✓ Krassimira Petrova Zafirova	SAP	Specialist	September 10, 2013	<input type="checkbox"/> Ralitsa Vasileva - Easyconsult	Krassimira Petrova Zafirova

# Jaborate Solution

**Jaborate integrates** real-time communications where users need them most: the productivity and collaboration systems. It adds instant messaging, presence, audio, video, and conference calls, for direct communication to your collaboration endpoints.

Across all your applications, users will be able to communicate via a **unified interface**. Jaborate currently offers the same communication experience across: Microsoft SharePoint, IBM Connections, SAP Core, with more coming soon. This reduces friction, while increasing user adoption and engagement.

## V. Our teams

# I. Our Microsoft team

## **BULPROS Partner programs with Microsoft:**

Gold Partner Application Development

Azure Circle Partner

Cloud Essentials Partner

Exclusive Partner for InTouch

## **Microsoft technology specialists:**

60 .NET developers

7 Windows Mobile Application developers

17 SharePoint Developers

8 SharePoint Operations engineers

4 Office 365 & Unified Communications consultants

7 Private Cloud & Server Infrastructure consultants

3 AD & Identity Management consultant

## II. Our Java team

### **BULPROS Java team focus:**

Development and support of software for our Enterprise Customers

Strong relationship with Cisco Systems

- outsourcing for Cisco Sofia Development Center
- Integration solutions for Cisco Unified Communications, Jabber and WebEx

### **Java technology specialists:**

25+ developers

1 Core Team @ Cisco Sofia Development Center

In-house team

## III. Our Web&Mobile team

### 25+ developers

Complex application across the popular platforms:

- iOS
- Android
- Windows Phone
- PHP
- Ruby

### Team consists of

- UI/UX Designer
- Frontend Developers
- Mobile Developers

### Technologies:

- HTML5/CSS3, Angular.JS, Node.JS, Backbone.JS, Underscore.JS
- Mobile clients (Java, .NET, native C++)

## IV. Our Embedded Technologies team

**15+ developers on-site @**

**Johnson Controls**

Innovative Software Solutions for:

- Daimler
- BMW
- Peugeot
- Renault
- Ford Motor Company,
- GM
- VW Group
- Honda
- Toyota
- And others

**Technologies:**

- Embedded C/C++
- GUI – Javascript, HTML5, CSS3, 3D Design, HMI environment,
- Hardware design,
- Software and hardware testing, etc.
- QA

## VI. Our communities

# Our Communities

Table Tennis

Yoga & Aerobics

Football
